Halitoses; A Medical Term For "Bad Breath" Is An Embarrassing Problem For Many People. Donald Newman, DDS A Boca Raton Dentist Treats This Problem By Introducing A Natural Holistic Remedy

Odors coming from the mouth are referred to as volatile sulfur compounds. This has its origin in gum disease, bacteria on the tongue and even from the gastrointestinal tract.

West Palm Beach-Boca Raton, FL (1888PressRelease) July 30, 2008 -

Halitoses has been a difficult problem for many people to address.

Donald Newman, DDS of Boca Raton is now treating patients in a three pronged phased therapy. His natural and holistic approach starts with a general debridement to remove as much bacteria as possible.

“ I Promise to provide exceptional quality and tremendous value as your low cost dentist in Boca Raton.

The tongue harbors bacteria and it too must be cleaned. His philosophy is " when the mouth is clean, the body heals itself". He

incorporates a mouthrinse with chlorine dioxide to help eliminate the odor forming volatile sulfur compounds. Additionally Dr. Newman uses an oral regenerative elixer.

This product Inhibits bacteria that causes cavities, gum pain, plaque, and gingivitis. It alleviates gum bleeding while it whitens the teeth. Lastly, Dr. Newman has the patient ingest chlorophyll which oxygenates, alkalyzes and deodorizes the gastrointestinal tract. The whole body is healthier and happier when the mouth is clean.
